## Iggy Pop - Till Wrong

Tom: D

(intro)

(verso)

I took a poundin' From the radio today I heard the radio say some piece of shit Was it the sound of today?

I took a bitin' 'beating' When I saw my TV play, I saw my TV play Over and over And there were no escape

The box is hallow And that riff is fucking dead, That riff is fucking dead, but the riff is poundin' In my fucking head

They're gonna push it Until false is true Until day is night, they're gonna push it baby Until wrong feels right

It's a big industry And they can beat my brain With houses and wars and chains, they are insane But they can beat my brain

God and his captains They won't pull a fucking plug They won't pull a fucking plug and give the skies Back to the birds and bugs
