

# Igor Di Cavalcanti - Through The Phone

tom:

**E**

Through the phone I try to be as near as I can

It's so fun to listen to you telling me 'bout your day

But won't you girly girl go on and make me understand

Don't you know what I want you to say (say, say, say)

Babe, don't you let another day go by

Babe, just confess and make me feel alright

A man like me deserves to be completely satisfied

Please, please, please, please me babe

Tell me you love me tonight

With a song I'm going to make you tenderly comprehend

Two in love should not avoid their hearts and their sayings

So won't you girly girl go on and make me understand

Don't you know that I need you to say (say, say, say)

[Refrão]

If you won't? I'm feeling the blue ? tell me you love me tonight

Oh darling, when it's true ? tell me you love me tonight

Just the way I say to you

## Acordes
