

# Illusion Cat - Epilogue of a Poor Man

tom:

Intro: **Am**

[Primeira Parte]

**Am**  
Think fast baby

You got twisted again

You got no money in your pocket

And you bought yourself a gin

Think fast darling

You're the choices you make

You got no shelter in your forest

But you got your self esteem

[Refrão]

**Am**  
Still I'm getting old

And you're off of my time

My cigarettes gonna make you wild now

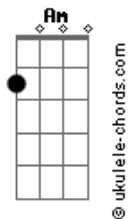

Dont you go up as I still

See you going down

Living a life that you

Never had around

## Acordes

[Segunda Parte]

**Am**  
You got choices to make

You have no happiness

In your loneliness

And you bought yourself a kid

Think fast honey

You've been cheated again

You got no money in your pocket

And you bought yourself some time

[Refrão]

**Am**  
Still I'm getting old and you're

Off of my mind

My grow old hair gonna

Make you wild now

While falling apart with your

Kids and settling down

Living a life that you

Never though about

[Riff 1]
