

Imagine Dragons - Sirens

tom:

Intro: Bm D G Em

Fall right down to the bottom

Boy with the motto

Stay by the autumn leaf and trust me, my heart bleeds

I feel it with fear

Drip, drop, drink out of the bottle

Boy with the heart of gold, get run over by heaven knows

What weary soldier, I get older, life gets colder

Sometimes I get a little bit scared at night

I get a little preoccupied

The sirens in my mind, the sirens in my mind

I just wanna be good again

I wanna make it to the end

The sirens in my mind, the sirens in my mind

Autumn, stuck in the grotto

Been tryin' for the lottery but n?ver win
