

Immaculate Fools - Bad Seed

tom:

C

C

When you put it all together

Will it all come clear?

When things get better

Will you come back here?

Will it all make sense to you?

Will it all come true?

Don't think about the future

Just now and next

It's not the way you want it

But it's all you can get

Will it all make sense to you?

Will it all come true?

God knows

And you know

There's a bad seed in you

You always say I swear

On my baby's eyes

They don't always believe you

But it gets you by

Will it all make sense to you?

Will it all come true?

God knows

And you know

There's a bad seed in you

There's a bad seed in you

You're holding out for nothing

In the usual way

You never make it easy

But that's ok

Will it all make sense to you?

Will it all come true?

God knows

And you know

There's a bad seed in you

Between the days

Of chance and change

Nothing remains

Beneath your pain

Bad seed in you

(C F Am G Am F C)

Your dreams are taking over

But that's all right

It's such a pretty picture

And it passes the time

Will it all make sense to you?

Will it all come true?

God knows

And you know

There's a bad seed in you

(C F Am C F Am)
