

# Ina Wroldsen - Body Parts

Tom: G

You wanna be perfect  
 Like a work of art  
 Like what you see in magazines  
 You wanna be perfect  
 It's gonna be worth it  
 And you've worked so hard  
 Been skippin' lunch for chewin' gum  
 It's gonna be worth it

In your bedroom  
 Lookin' in the mirror  
 Weighin' up your option  
 Battlin' your scales  
 In your head screamin'  
 Open up your eyes

But salvation  
 Never came from changin' body parts  
 Perfect is worthless if you lose yourself  
 Valuation  
 Never came from changin' body parts  
 Perfect is worthless if you bruise your heart for it

You wanna go places  
 Like a risin' sun  
 You wanna explore and open doors  
 You wanna go places  
 You wanna be famous  
 Wanna become someone  
 And like the waves you're bound to break  
 And think of their faces  
 In your bedroom  
 Lookin' in the mirror  
 Weighin' up your option  
 Battlin' your scales  
 In your head screamin'  
 Open up your eyes

But salvation

Never came from changin' body parts  
 Perfect is worthless if you lose yourself  
 Valuation  
 Never came from changin' body parts  
 Perfect is worthless if you bruise your heart for it

I fought for such a long time  
 To get here  
 I fought this war, now I have my stars  
 I fought for such a long time  
 I swear  
 You're so much more than all your body parts

But salvation  
 Never came from changin' body parts  
 Perfect is worthless if you lose yourself  
 Valuation  
 Never came from changin' body parts  
 Perfect is worthless if you bruise your heart for it

But salvation  
 Never came from changin' body parts  
 Perfect is worthless if you lose yourself  
 Valuation  
 Never came from changin' body parts  
 Perfect is worthless if you bruise your heart for it

I fought for such a long time  
 To get here  
 I fought this war, now I have my stars  
 I fought for such a long time  
 I swear  
 You're so much more than all your body parts

But salvation  
 Never came from changin' body parts  
 Perfect is worthless if you lose yourself  
 Valuation
