## **Incubus - Certain Shade Of Green Acoustic**

## Tom: D

This classy version is quite different from the original and can be found on Napster or whatever

program/site you use. It was recorded at an MTV acoustic session, and, in my opinion, is very clever. This is how I it and as far as I'm aware it is correct - if it's not please contact me at - Enjoy.

It's impossible to tab the rhythm just right cos it changes every time and really is improvised. The same for the solo - just improvise yourself.

Don't take the tab too literally - just mess around with the chords as he does.
