

# Inglorious - Glory Days

Tom: G

I guess you heard a whisper  
 Should've never kissed her, anyway  
 I wanna tell you something  
 That it meant nothing  
 I'll hide away, i'm ashamed  
 I can never do without  
 Stand right here while you  
 Scream and shout in my face, oh, my face  
 I went wrong, no doubt  
 I messed up so i'm going back to my place, oh, my place  
 When someone stop us  
 We are walking away  
 From glory days  
 When someone stop us  
 We are walking away  
 From glory days  
 I never knew such kindness  
 A different world when i'm in your embrace, woah  
 If i could go back I would  
 Make it right but i can't find a way

And i can't stay  
 I can never do without  
 Stand right here while you  
 Scream and shout in my face, oh, my face  
 When someone stop us  
 We are walking away  
 From glory days  
 When someone stop us  
 We are walking away  
 From glory days  
 I've taken all your trust  
 I know you've had enough  
 But darling, believe me  
 And i'll never make the same mistake  
 When someone stop us  
 We are walking away  
 From glory days  
 When someone stop us  
 We are walking away  
 From glory days, oh
