

# Ingrid Michaelson - Light Me Up

tom:  
 Ab (forma dos acordes no tom de G )  
 Capostraste na 1ª casa

Well you're not what I was looking for"  
 But your arms were open at my door  
 And you taught me what a life is for  
 To see that ordinary, isn't

Light me up again  
 Light me up again

And I want to keep us all alive  
 And I want to see you with my eyes  
 But I see you in the fireflies  
 And how extraordinary is that

Light me up again  
 Light me up again

And you don't hold back  
 So I won't hold back  
 And you don't look back  
 So I won't look back

Light me up again  
 Light me up again

We are, we are, we are tonight  
 We are, we are, we are forever  
 We are, we are, we are tonight  
 We are, we are, we are forever

We are, we are, we are tonight  
 We are, we are, we are forever

We are, we are, we are tonight  
 We are, we are, we are forever  
 We are, we are, we are tonight  
 We are, we are, we are forever

And you don't hold back  
 So I won't hold back  
 And you don't look back  
 So I won't look back

Light me up again  
 Light me up again

And you don't hold back  
 So I won't hold back  
 And you don't look back  
 So I won't look back

Light me up again  
 Light me up again  
 Light me up again  
 Light me up again

We are, we are, we are tonight  
 We are, we are, we are forever  
 We are, we are, we are tonight  
 We are, we are, we are forever
