Ingrid Michaelson - Stay Right Where You Are

Tom: C
Intro: Am G Dm Em

```
Am              C              Dm       Em
   Everybody says the world is ending
Am        G            Dm            Em
   But tonight's just beginning
Am                  C              Dm          Em
   While everyone is running out and spinning

   G                  Dm
   We keep slowing down

     C          Am          Em
   Stay right where you are
              C           Am         Em
   C'mon let me dance with you
   C        Am              Em
   Tell me where to start
              C          Am       Em
   Let me put my hands on you

Am             C            Dm        Em
   Everything we need is in the quiet
    Dm                  Am    G
   So let's hide out deep inside it
Am           C          Dm         Em
   And even if tomorrow doesn't hold on
      Dm                    G
```

```
   At least, at least, at least we have this one song, one
song

     C          Am       Em
   Stay right where you are
              C           Am         Em
   C'mon let me dance with you
   C        Am              Em
   Tell me where to start
              C          Am       Em
   Let me put my hands on you

Am        Em          Dm
   Your eyes, your hands, your breath on my neck
Am       Em         Dm
   The way you say let's never forget
Am       Em          Dm                    Dm
   This way, this love is all that we get

     C          Am          Em
   Stay right where you are
     C          Am          Em
   Stay right where you are
     C          Am          Em
   Stay right where you are
                   C           Am    Em
   C'mon let me dance with you
     C          Am          Em
   Stay right where you are
```
