

# Inkubus Sukkubus - Gypsy lament

tom:

G

G D Em

Sleep well, my Love

G D Em  
Sleep while the night sky weaves her spell

G D Em  
Sleep without pain

G D Em  
Sleep though I yearn to have you near me

C D  
The flames of all you were

G Em  
Have vanished in the ground

C D Em  
Sweet scented rosemary is scattered all around

G D Em  
Wait just a while

G D Em  
For in no time we'll meet again

G D Em  
Though you were gone

G D Em  
Before we wed

C D G Em  
I give blood to you earth, not take it to his own

C D  
No fire or water deep  
Em

Shall keep this bride from him

G D Em  
He left me while

G D Em  
The seas were wild against the shore

G D Em  
What foolish thief

G D Em  
Would dare defy the hand of fate?

C D G Em  
I love you now as I'll never love again

C D  
The rocks beneath my feet

Em  
Have sunken deep

C D  
Earth to earth

G Em  
My love my own shall be

C D  
Grow like the willow tree

Em  
No sadness bring to me

C D G Em  
He the man, and I the woman

C D  
My love to me

Em  
This shall be
