INXS - Burn For You

Tom: G

```
    G
It's no use pretending
G
That I understand
G
The hide and seek we play with facts
G
Changes on demand

CHORUS :
A                       E
Take my hand, at the start
           D
And the shadows, they burn dark
A                   E
Love me, and I'll burn for you
          Gbm          A    Bm
And the love song'll never stop

Then the next verse is in D : ie :
D
I like the look in your eyes
D
When you talk that certain way
       A              A   G   F   E
I love the day, and the night
D                         F
When you know that lovers way

Then back to G : ie :
```

```
G
Minding my own business
G
When you came along
G
Temperature was running hot
G
Fever was so strong

Another Chorus :
D
It's always an adventure
D
The fantasy we make a fact
A                      A   G   F   E
Your the secret I desire
D                            F
I can't keep that to myself
G
When we're not together
G
It doesn't feel so bad
G
We could be so far apart
G
But our love's not sad

G   E   F   C (4 times)
