Tom: C

All veils and misty ^{Dm Am}

Streets of blue ^G

Almond looks ^{F Dm Am}

That chill divine ^G

Mystify ^{Am}

Mystify me ^{C G}

Mystify ^{Am}

Mystify me ^{C G}

(Dm-Am-G-F)
I need perfection
Some twisted selection
That tangles me
To keep me alive

(Dm-Am-G-F)

In all that exists
None have your beauty
I see your face
I will survive

Eternally wild with the power ^{Em7 G7}

To make every moment come alive ^{Em7 G7}

All those stars that shine upon you ^{Em7 G7}

Will kiss you every night ^{Em7 G7}

(Dm-Am-G-F)
All veils and misty
Streets of blue
Almond looks
That chill divine
Some silken moment
Goes on forever
And we're leaving
Yeah we're leaving broken hearts behind

You're eternally wild with the power ^{Em7 G7}

To make every moment come alive ^{Em7 G7}

All those stars that shine upon you ^{Em7 G7}

And they'll kiss you every night ^{Em7 G7}
