Solo Part 1:

Important note:
Hold last 11th fret note until you repeat the note again (will represent by putting it in brackets)

(1st time) (play this section 7 times and then...)

(play this once)

(play this 3 times more and then...)

(play this again once more)

Solo Part 2:

Important note:
This requires heavy use of the whammy bar, so make sure you have one! Whammy bar notes be noted with stars around the section that they appear in for example 15--17. If are required to change the note while the whammy bar is still down then it will be noted this 15--17, this means you keep the whammy bar down but change the note. you understand this :))

Oh and a bend is b, half bend is hb.
Like wise a b~ is a bend and vibrato at the top of the bend.

1 pick at top of bend and
bend back down

| / slide up
