

Iron Maiden - Only the Good Die Young

Tom: C

dive w/bar

This is the verse rhythm part (play twice):

Here's the end solo:

There is a clean electric guitar playing some chords over top of that part (play twice):

dive w/bar

This is the next part:

pick slide trill... trill... trill...

gradually release bend

Then it repeats from the verse riff up until the above part once more. After that it goes into the chorus:

power chord switches to E trill...

pick slide trill...

Then comes the solo. This is the rhythm part (just basic powerchords, no fancy rhythm patterns or anything...play twice):
