tom:

Se o teu olhar cruzar com o meu

Se a tua mão na minha se perder

Deixa o coração falar

Deixa o brilho desse olhar

Preencher a vida de emoção

Sei que vale a pena reviver

Sei que no teu peito ainda tem um canto meu

Deixa o que passou pra traz

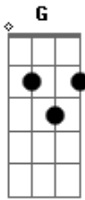

Se ainda existe amor tem mais
 Que a gente aprender como viver

O sol veio nos irradiar
 Com a luz milenar do saber
 E as estrelas vieram lembrar

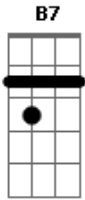

Que até no espaço só existe você
 Deixa a lua iluminar
 Que essa noite eu vou mostrar

Que infinito é bem menor
 Que esse amor que é só teu
