

Iza Delucena - He Loved Me

Tom: Db

m [Intro] Db Db Gb Gbm Db Eb F
Bbm Ebm Ab4 Ab B

I was lost in my sin when he found me

Broken and in despair

Desperate searching for something

And someone who would care

Than I met Christ the Savior

Who gave his life for me

Overwhelmed by his mercy

And all he's done for me

He loved me, forgave me, my life has change since Jesus came

And loved me, forgave me, I know I'll never be the same

Now I see, now I believe, now I know his love for me

When I think of how far I have wondered

Wounded and filled with shame

I stand amazed that he loved me

Before I called on his name

I've heard of the love of Jesus

But never thought it could be

That he would show so much mercy

And save someone like me

He loved me, forgave me, my life has change since Jesus came

And loved me, forgave me, I know I'll never be the same

Now I see, now I believe, now I know His love for me

His love for me... his love for me...

He loved me, forgave me, my life has change Jesus came

And loved me, forgave me, I know I'll never be the same

Now I see, now I believe, now I know his love for me

Now I know his love for me
