B7sus4 D Maybe some day
Bm7 least that's what all
A The good people will say
G Hey, little girl
Em Look what you've done
Bm You've gone and stole my heart
A G And made it your own
Bm You've stole my heart
A G And made it your own

A7sus4 Bm(#5) Hey, little girl
B7sus4 D Black and white and right and wrong
Bm7 Only live inside a song
A I will sing to you
A7sus4 Bm(#5) You don't ever have to feel lonely
B7sus4 D You will never lose any tears
Bm7 You don't have to feel any sadness
A When you look back on the years
G How can I look you in the eyes,
Em And tell you such big lies?
Bm A The best I can do is try to show you
G How to love with no fear
Em My little girl
Bm You've gone and stole my heart
A G And made it your own
Bm You've stole my heart
A G And made it your own
