

# Jack Johnson - Never Know

Intro: B Ebm Gb  
B Ebm Gb

Tom:

[Refrão]

It feels good to be the one, that you want  
When all I want is you  
It feels good to be the one, that you want  
When all I want is you  
[Verso 1]

When I first saw you come across the room  
And then you saw me, then I knew what to do  
I tried to play it cool  
And attached no strings  
But by the end of the day  
I needed the whole thing

[Refrão]

It feels good to be the one, that you want  
When all I want is you  
It feels good to be the one, that you want  
When all I want is you

[Verso 2]

You see I knew right then  
That this could last so long  
I went home that night  
I wrote my first love song  
And as the days went by  
I knew I had it made

Well you could try to pretend  
Your smile gave it away

[Refrão]

It feels good to be the one, that you want  
When all I want is you  
It feels good to be the one, that you want  
When all I want is you

[Verso 2]

And now here we are, how could we ever know  
I knew I loved you then  
And I've watched you grow  
So it came to be  
That I raised you and you raised me  
Were lucky that way

Cause our love can never fade

[Ponte]

No our love can ne-----ver fade yeah  
Our love will ne-----ver fade yeah  
Our love can ne-----ver fade yeah

[Refrão]

It feels good to be the one, that you want  
When all I want is you can ne-----ver fade yeah  
It feels good to be the one, that you want  
When all I want is you can ne-----ver fade  
All I want is you  
Can ne-----ver fade  
When all I want is you
