

# Jack Johnson - No Good With Faces

Tom: B

B Abm Gb E )

**B**  
No good with faces and i'm bad with names

Road signs were stolen  
Left here holding this flame

**Abm** **E**  
Gave me directions but its all the same

Who stole my patience  
Who stole my way

**B** **Abm**  
I'm lost

I'm lost

**Gb** **E** **B**  
I'm too tired to try

I'm too tired to try

**B** **Eb**  
Street lamps are broken black the way I came

Let's not get ahead of ourselves now  
There's no need for rain

**Abm** **E**  
Who broke the moonlight watch it wax and wane

It's our own parade  
Let's not be afraid of our reflections

**B** **Abm**  
I'm lost

It's not only you  
You're looking at now

**Gb** **E** **B**  
I'm too tired to try

Let's not get ahead of ourselves now  
There's no need for rain

(refrão)

It's our own parade  
Let's not be afraid of our reflections

**Abm** **B**  
Let's not get ahead of ourselves now

It's not only you  
You're looking at now

**E** **B** **Abm**  
There's no need for rain it's our own parade

Who you looking at now  
Who you looking at now

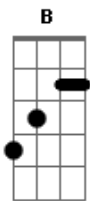

**Abm** **B**  
Let's not be afraid of our reflections

**E** **Eb** **B**  
It's not only you You're looking at now

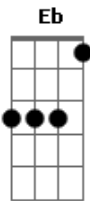

No good with faces  
And I'm bad with names  
Gave me directions  
But it's all the same  
I'm lost  
I'm too tired to try
