

Jack Johnson - No Good With Faces

Tom: B

B Abm Gb E)

B
No good with faces and i'm bad with names

Road signs were stolen
Left here holding this flame

Abm **E**
Gave me directions but its all the same

Who stole my patience
Who stole my way

B **Abm**
I'm lost

I'm lost
I'm too tired to try

Gb **E** **B**
I'm too tired to try

Let's not get ahead of ourselves now
There's no need for rain
It's our own parade
Let's not be afraid of our reflections
It's not only you
You're looking at now

B **Eb**
Street lamps are broken black the way I came

Abm **E**
Who broke the moonlight watch it wax and wane

B **Abm**
I'm lost

Let's not get ahead of ourselves now
There's no need for rain
It's our own parade
Let's not be afraid of our reflections
It's not only you
You're looking at now
Who you looking at now
Who you looking at now

Gb **E** **B**
I'm too tired to try

(refrão)

Abm **B**
Let's not get ahead of ourselves now

E **B** **Abm**
There's no need for rain it's our own parade

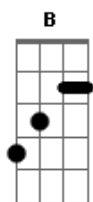

Abm **B**
Let's not be afraid of our reflections

E **Eb** **B**
It's not only you You're looking at now

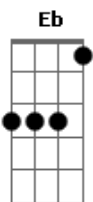

(B Eb Abm E

No good with faces
And I'm bad with names
Gave me directions
But it's all the same
I'm lost
I'm too tired to try
