

# Jack Johnson - Sleep Through The Static

Tom: C

( A batida dessa música é a mesma da música Times Like These, também do Jack Johnson )

[VERSO]

C  
 Trouble travels fast  
 C Am  
 When you're specially designed for crash testing  
 Em  
 Or wearing wool sunglasses in the afternoon  
 F  
 Come on and tell us what you're trying to prove  
 C  
 Cuz it's a battle when you dabble in war  
 Am  
 You store it up, unleash it, then you piece it together  
 Em  
 Whether the storm drain running rampant just stamp it  
 F F  
 And send it to somebody who's pretending to care  
 C  
 Just cash in your blanks for little toy tanks  
 Am  
 Learn how to use them, then abuse them and choose them  
 Em  
 Over conversations, relationships are overrated  
 F  
 "I hated everyone" said the sun  
 C  
 So I will cook all your books  
 C  
 You're too good looking and mistaken  
 Am  
 You could watch it instead  
 Em  
 From the comfort of your burning beds  
 F / G  
 ?Or you can sleep through the static  
 [REFRÃO] ( tocar apenas uma batida nas cordas para cada nota )  
 C G7 Am  
 Who needs sleep when we've got love?

F G7 C  
 Who needs keys when we've got clubs?  
 C G7 Am  
 Who needs please when we've got guns?  
 F G7 C  
 Who needs peace when we've gone above  
 C G7 Am  
 But beyond where we should have gone?  
 F G7 C C  
 We went beyond where we should have gone

[ VERSO ]

Stuck between channels my thoughts all quit  
 I thought about them too much, allowed them to touch  
 The feelings that rained down on the plains all dried and cracked  
 Waiting for things that never came

Shock and awful thing to make somebody think  
 That they have to choose pushing for peace supporting the troops  
 And either you're weak or you'll use brute force feed  
 The truth is we say not as we do

We say anytime, anywhere, just show your teeth and strike the fear  
 Of God wears camouflage, cries at night and drives a dodge  
 Pick up the beat and stop hogging the feast  
 That's no way to treat an enemy

Well mighty mighty appetite  
 We just eat 'em up and keep on driving  
 Freedom can be freezin' take a picture from the pretty side  
 Mind your manners wave your banners  
 What a wonderful world that this angle can see

[REFRAO]

But who needs to see what we've done?  
 Who needs please when we've got guns?  
 Who needs keys when we've got clubs?  
 Who needs peace when we've gone above  
 But beyond where we should have gone?  
 Beyond where we should have gone  
 We went beyond where we should have gone  
 Beyond where we should have gone
