

Jack Johnson - Tape Deck

```
Intro: (Bb Eb Eb F )(x2)
                                                               Fh
(primeira parte)
From my tape deck there's a recklessness
Inflections of the world we want
All my friends, my rusty truck
We're just specks of love, directionless
                Fb
Call this band just what we want
We can change the name from month to month
                Eb
Four guitars and zero drums
We sounded folk but we wanted to be punk
In a world post punk
My friend had an old guitar
He took some lessons didn't get very far
An Ibanez with one knob stuck
Said, "You can have that thing for fifty bucks"
                       Fb
Laura got a bass but it got no amp
Borrowed skills but never gave it back
                                                               Bb
Luke is just learning how to strum
                                                               Fh
But since he was the worst
      Е
We made him play the drums
                                                               Fb
Fh F F
Play the drums
(refrão)
                                                               Eb

You may find
In the palm
Of your hand
                                                               Bh
There's a flame
Bb
As it burns

As it climes
As it turns
Fh
To a blaze
                                                               Fb

Here it comes
Hold it close

(segunda parte)
Luke's mom said that after school
We could rehearse in the living room
But that sure didn't last too long
Guess she didn't know we'd play Fugazi songs
                        Eb
We played these songs in the talent show
And all of the girls would be in the front row
                 Eb
But in the end we just chickened out
Because we can't sing
We can only shout
Only shhh
(refrão)
You may find
In the palm
Of your hand
There's a flame
As it burns
As it climes
As it turns
To a blaze
Well this flame
It won't last
Here it comes
Hold it close
Cause this blaze
Can be fast
Set it free now there it goes
