

# Jackson Wang - Drive You Home

tom:  
 Db (forma dos acordes no tom de C )  
 Capotraste na 1ª casa  
 Intro: C G

[Primeira Parte]

We fell in love on Geary Boulevard  
 With the sun coming down on the front of my car  
 Felt something like something like an 80's movie  
 Felt something like something like you'd never lose me

[Pré-Refrão]

So why we gotta check into the heartbreak hotel  
 Oh hell  
 You know me better than myself  
 I don't wanna go home, no way  
 Without you  
 Ain't gonna be good for my health  
 And every roadmap leads straight to your heart  
 So I can't leave you tonight  
 No not tonight

[Refrão]

Cause who's gonna drive you home  
 When you've had a crazy day?  
 Who's gonna dry your eyes  
 When your tears fall like the rain?  
 Tears fall like the rain

[Segunda Parte]

I think we lived in a homemade video  
 But it's like you and I rewind to the lowest low  
 I always thought, always thought we could reverse it  
 I always thought, always thought we could be perfect

[Pré-Refrão]

So why we gotta check into the heartbreak hotel  
 Oh hell  
 You know me better than myself

## Acordes

I don't wanna go home, no way

Without you  
 Ain't gonna be good for my health  
 And every roadmap leads straight to your heart  
 So I can't leave you tonight  
 No not tonight

[Refrão]

Cause who's gonna drive you home  
 When you've had a crazy day?  
 Who's gonna dry your eyes  
 When your tears fall like the rain?  
 Tears fall like the rain

So who's gonna drive you home?  
 Who's gonna drive you home?  
 And I'm 80 miles from going insane  
 I've been missing, missing those days  
 So baby let me love you

[Primeira Parte]

We fell in love on Geary Boulevard  
 We fell in deep, we fell so hard  
 Maybe one more cruise will make it alright  
 While you hold my hand from the passenger's side

[Refrão]

Cause who's gonna drive you home  
 when you've had a crazy day?  
 Who's gonna dry your eyes  
 When your tears fall like the rain?  
 Tears fall like the rain

So who's gonna drive you home?  
 Who's gonna drive you home?  
 And I'm 80 miles from going insane  
 I've been missing, missing those days  
 So baby let me love you  
 So who's gonna drive you home?
