Tom: G

My heart is weak<sup>Em</sup>  
 Tear it down piece by piece<sup>C</sup>  
 Leave me to think<sup>Em</sup>  
 Deep in my structure, I think I still love her<sup>Bm C D</sup>  
 But I need some sleep<sup>Em</sup>  
 You've taken my breath away<sup>C</sup>  
 Now I want to breathe<sup>D Em</sup>  
 'Cause I cannot see, what you can see<sup>Bm C</sup>  
 So easily<sup>D Em</sup>

I thought my demons were almost defeated<sup>Em C</sup>  
 But you took their side and you pulled them to freedom<sup>D Em</sup>  
 They know my secrets and won't let me go, won't let me go<sup>Em C</sup>  
 I thought my demons were almost defeated<sup>D Em</sup>  
 But you took their side and you pulled them to freedom<sup>D Em</sup>  
 I kept your secrets and I thought that you would do the same<sup>Bm C</sup>

Leave me in peace<sup>Em</sup>  
 Caught in my memories<sup>C</sup>  
 Lost underneath<sup>D Em</sup>  
<sup>Bm C D</sup>

Deep in my structure, I feel a rupture<sup>Em</sup>  
 From where she should be<sup>C</sup>  
 You've taken my breath from me<sup>D Em</sup>  
 Now I want to breathe<sup>Bm C</sup>  
 'Cause I cannot see, what you can see<sup>D Em</sup>  
 So easily<sup>Em C</sup>  
 I thought my demons were almost defeated<sup>D Em</sup>  
 But you took their side and you pulled them to freedom<sup>Em C</sup>  
 They know my secrets and won't let me go, won't let me go<sup>D Em C</sup>  
 I thought my demons were almost defeated<sup>D Em</sup>  
 But you took their side and you pulled them to freedom<sup>Bm C</sup>  
 I kept your secrets and I thought that you would do the same<sup>Em C D</sup>  
 Take me away<sup>Em C</sup>  
 I thought my demons were almost defeated<sup>D Em</sup>  
 But you took their side and you pulled them to freedom<sup>Em C</sup>  
 They know my secrets and won't let me go, won't let me go<sup>D Em C</sup>  
 I thought my demons were almost defeated<sup>D Em</sup>  
 But you took their side and you pulled them to freedom<sup>Bm C</sup>  
 I kept your secrets and I thought that you would do the same
