Em             G                Bm7
Last night the moon watched the sea,
                Em
As he looked so sad,
                G           Bm7
His reflection told me the story,

                C       Em
Why he didn't speak a sound,
                  C          Em
And all to do is weep, come down.

Em         G               Bm7
I tried to ask him what he needs,
                    Em
Moon light paints my face,
             G                   Bm7
And when he turned and looked to me,

               C      Em         (strum this chorus)
Still we never speak a sound,
                 C         Em
And all to do is weep, come down.

Em           G              Bm7
And when the up comes to an end,
             Em
And all is last,
               G             Bm7
The moon will lose his only friend,

               C      Em         (strum this chorus)
Still we never speak a sound,
                 C         Em
And all to do is weep, come down.

C      Em               (strum this too)
No more words,
C      Em
Lost in space,
C          Em
It's on his face,
             C
Man on the moon.
