

Jake Bugg - The One I Never Knew

Tom: B

(com acordes na forma de Capotraste na 4ª casa G)

All the girls I've ever known
Have something about you
You don't believe the things I say
Even when they're true

But girl I'm telling you that you're something else

And I mean the things I say

I hope one day you'll realise
What you're in my eyes
All the words I say are true
No, I don't tell lies

But girl I'm telling you that you're something else

And I mean the things I say

Am Em
Haven't known you long
Am Em
Still wrote you this song
Am Em
And I sing words so true
G
That I sing, that I sing, for you

(Just repeat)

All the girls I've ever known
Have something about you
You don't believe the things I say
Even when they're true
But girl I'm telling you that you're something else
And I mean the things I say

Haven't known you long
Still wrote you this song
And I sing words so true
That I sing, that I sing, for you
