

Jake Bugg - This Time

tom:

Intro: A
 Hey there, I said hey there
 Signals to low can't hear you on the line
 Call me, you said call me
 Call but there's no ringing on your side
 Morning, she said morning
 Sorry I got in just from last night

But you are my star
 Light years apart
 And here from the dawn
 You let me out with your love
 And if I chase

This time won't be the last
 Do watch space
 In every place
 In this world between us girl
 I'm tired of catching planes
 But you are my star
 Getting where I start
 And here in the dark
 Light shines ever so hard
 And if I chase
 This time won't be the last
 And if I chase
 This time won't be the last
