

James Arthur - Ride

tom:
 Am
 Baby, just to ride with you, ride with you, ride with you, ride
 Am F
 Baby, just to ride with you, ride, baby, all night
 Dm G

[Primeira Parte]

Am
 Yeah, they think I have it all, you know my life ain't perfect
 F
 You see what's underneath, you see what's on the surface
 Dm
 You get the best of me, they get a lesser version
 G
 I don't wanna run away, but you know that I get nervous

[Refrão]

Am
 Overdrive with the flashin' lights got me feelin' blind
 (Feelin' blind)
 F
 Do or die, live a little lie, wanna feel alive (Do or die)
 Dm
 It's been a while, in another life I wanna leave behind
 E
 Let's get back to you and I

[Pré-Refrão]

Am
 Yeah, I got my eyes wide shut, drivin' through the night
 F
 And my lungs are filled with purple haze (Are filled, yeah)
 C G
 Yeah, I'm livin' it up to get me out my mind
 Am
 'Cause it's in my blood, rushin' through my veins
 F
 I feel numb when I hear them say my name
 C G
 Yeah, I'm livin' it up, but I'd leave it all behind

[Refrão]

Am F
 Baby, just to ride with you, ride with you, ride with you, ride
 Dm G
 Baby, just to ride with you, ride, baby, all night (Baby, just to ride)
 Am F
 Baby, just to ride with you, ride with you, ride with you, ride
 Dm G
 Baby, just to ride with you, ride, baby, all night (Baby, just to ride)

[Segunda Parte]

Am
 Yeah, so I fill my lungs with this weed smoke
 That's the only way we cope
 F
 Sick to death of these journalists
 Diggin' up my past, so I burn a spliff
 Dm
 And I hop on board my spaceship
 Never hold down a relationship
 E
 And I fake shit, so I make ship
 Show me something real and not makeshift
 Am

And I'll build a bridge if we're falling out
 You don't wanna know what I am all about

F
 Got too many demons to summon out
 Me and myself, these smoke clouds
 Dm

I'm colder now, I'm covered in ice
 I will not forget you were not very nice
 E
 This is how we separate the men from the mice
 Let me give you advice
 You can fool me once, but can't fool me twice
