

James Arthur - Smoke Clouds

Tom: C

Em
Look no farther than the father's who go farther than they should

Am
To the point where we're surrounded by the scars behind their hoods

Em Am
and who no no is gonna teach them wrong from right?

who's gonna tell them it's alright?

B Am
pass the just (?) cigarette

B Am
take these brain cells out my head

B Am
fill my lungs, drain my heart

Chorus

Em Am
'cause this smoke cloud's giving me shelter

Dm
and I feel much better

B
and demons wave the white flags for me

Em Am
'til my bones keep pleading to walk out

Dm
from all of this fall out

B
but there's no way that I could leave

C
so I don't leave

B
turn the bitterness to sweet

Am B
I need to find a new release

Em
so I'm trading blues for green

Am Dm
hey no no no no

B
oh no no no no no

Em
Now I'm a simple man I don't even have a phone

Am
If I did I wouldn't pick it up I want to be alone

Em
I don't trust anyone in this one-track town

Am
If I walk (?) then my eyes fall down

Em Am Em
