

James Blunt - Anna Julia

Tom: E

(intro) E Dbm

Can't you hear that lonely symphony
 It's playing just for me
 It's the same old misery
 Trying to bring me down
 And I just wanna cry out loud
 And tell you how I feel
 Seeing your face in every crowd
 is making my heart beat harder.
 For the chance to be near you
 and whenever I see you
 and there's nothing can hold me down.
 Oh Anna Julia
 Oh Anna Julia
 All the guys that follow you around
 are trying to catch your eye
 They just think that I'm a clown
 I'm crazy to even try
 But when I see you on the street
 My whole world starts to change

Then the blood beneath my feet
 starts burning me up like a fire
 and I feel like I'm falling
 That's when I hear you calling
 Hold my breath and look around.
 Oh Anna Julia
 Oh Anna Julia
 (solo)

Pray for the day when your love sets me free
 People say there's no way
 that your love's not for me
 But there'll come a day
 When I tell you all that I feel
 and they'll stand and watch
 while you walk away with me
 Oh Anna Julia
 Oh Anna Julia
 Oh Anna Julia
 Oh Anna Julia, Julia, Julia... ow ow ow..

Acordes
