

# James Blunt - Billy Intro

Tom: **Gb**

Chords are good enough on other tabs, but thought i'd put up a completely correct tab of Intro: . Tuning is standard.

The (h11) is only played the second time around. I prefer to play the 13, because i it sounds better and smoother, but you can move it to the 8 on the **G** string if you want. I'm not certain if the (h11) is actually a hammer-on in the song but I find it sounds better on acoustic that way. Enjoy.

## Acordes
