

James Blunt - Heartbeat

Tom: G

(com acordes na forma de C)

Capostrate na 7ª casa

Intro: Am

Am
Let it slide

All the choices I made
Let it burn E7

As it rows down my face
Let it fall C

Just to be the one again Dm

But if I want Am
I won't be loved by you at all E7

Let it slip Am

Every promise I break
Let it burn E7

All that blows that we trade
Let it fall C

'Cause this place has been condemned Dm

And we both know Am
That we can't be here anymore E7

(Am G)

C
Yeah, I know I pulled a pin on your heart

But I lost that all, then tell you when you let down your guard
Should've run, run a hundred miles G

Never look back track, 'cause now we can backtrack C

And yeah, I know, I'm just sayin' nothing can change Am

No one to blame, it's on the tip of my tongue G

Here it comes, this is crazy, you should know that
I would go back in a heartbeat
Just to make your heart beat

(Am)

Am
Let it fail

It's too late to be saved

E7
Let it roll

They're all across this grey
Let it blaze C

There's a darkness in the flame Dm

And it's lost Am

And we can't bear it anymore E7

Let it slide Am
I can't start it again

Let it burn E7

While it's held in my hand
Let it fall C

'Cause this journey is at its end Dm

It's only luck Am

That I was loved by you at all E7

(Am G)

C
Yeah, I know I pulled a pin on your heart

But I lost that all, then tell you when you let down your guard
Should've run, run a hundred miles G

Never look back track, 'cause now we can backtrack C

And yeah, I know, I'm just sayin' nothing can change Am

No one to blame, it's on the tip of my tongue G

Here it comes, this is crazy, you should know that
I would go back in a heartbeat
Just to make your heart beat

C
Yeah, I know I pulled a pin on your heart

But I lost that all, then tell you when you let down your guard
Should've run, run a hundred miles G

Never look back track, 'cause now we can backtrack C

And yeah, I know, I'm just sayin' nothing can change Am

No one to blame, it's on the tip of my tongue G

Here it comes, this is crazy, you should know that
I would go back in a heartbeat
Just to make your heart beat
