

James Blunt - Someone Singing Along

Tom: B

B
Somebody's gonna wave a flag

Abm
Somebody's going to attack

Dbm
Somebody will tell you to pick a side

E
Tell you their version of wrong or right

B
Somebody's gonna let you in

Abm
Judged on the color of your skin

Dbm
Slam a door in the face of your friend

E
Simply because you don't look like him

Abm
And then you gotta find a way that you're wakin'
Everybody's walkin'

Dbm
You gotta find the words to say when you're talkin'

E
Everybody's talkin'

B Ebm Abm
So I built the wars into a song

Dbm E B
I'm hopin' someone's singing along

Ebm Abm
And even if some notes are wrong

Dbm E B
I'm hopin' someone's singing along

B Ebm
'cause just one voice is not enough

Abm Dbm
I need to hear from everyone

B Ebm Abm
And even when I'm dead and gone

Dbm E B
I'm hopin' someone's singing along

Somebody's gonna build a wall

Abm
Then smash it with a cannon ball

Dbm
Someone who somehow has got a gun

E
Will tell you who you can't and you can love

B
Some people keeping all the cash

Abm
They're gonna get away with that

Dbm
Just 'cause some people don't think like me

E B
Does that really make them the enemy?

Abm
And then you gotta find a way that you're wakin'

Everybody's walkin'

Dbm
You gotta find the words to say when you're talkin'

E
Everybody's talkin'

B Ebm Abm
So I built the wars into a song

Dbm E B

Dbm E B
I'm hopin' someone's singing along

'cause just one voice is not enough

Abm Dbm
I need to hear from everyone

B Ebm Abm
And even when I'm dead and gone

Dbm E B
I'm hopin' someone's singing along

Make a noise, I can hear you now

Ebm
Won't you raise your voice just a little louder

Abm
Make a noise, I can hear you now

E
Won't you raise your voice just a little louder

B Ebm Abm
So I built the wars into a song
