

James Smith - Introverted

tom:
Ebm (forma dos acordes no tom de Em)

Afinação: Eb Ab Db Gb Bb Eb

Remember when six weeks
Felt like a lifetime?
Swear every day's faster now
We all know the city
Runs on caffeine and white lines
But I wanna slow it down
(E E7)

The sun's gettin' low in the sky
We've reached that familiar time

But, boy, don't be bad
Come on, take a step back from the window
You know, you don't have to be high to get by
You're good as you are

Just take a breath
Walk through a field
T?ll all the people you lov? how you feel
Remember, you used to be fun
But, suddenly, you've become introverted
(G)

I got a to-do list
That I never finish
And that really grinds me down
I'm pulling out chunks of my hair
And I'm well-aware
That I'm only 23 going on dead

I wanna be happy now
(E E7)

The suns getting low in the sky
We've reached that familiar time

But, boy, don't be bad
Come on, take a step back from the window
You know, you don't have to be high to get by
You're good as you are

Just take a breath
Walk through a field
T?ll all the people you lov? how you feel
Remember, you used to be fun
But, suddenly, you've become introverted

Well, I left a bit on the side
It's staring me dead in the eye
The suns getting low in the sky
And I'm feeling lonely tonight

But, boy, don't be bad
Come on, take a step back from the window
You know, you don't have to be high to get by
You're good as you are

Just take a breath
Walk through a field
T?ll all the people you lov? how you feel
Remember, you used to be fun
But, suddenly, you've become introverted
