

Jamie Cullum - Save Your Soul

Tom: C

Intro: F G Am G C C F C

F Am
Know this, it's a universal truth
C (C) F (C)
People let you down
F Am
So reach out for the things that you can use
C (C) F
Buried in the ground

F
I think I've been misunderstood
Am C
Not all my choices have been good
F
In the fading light
F Am
So we should put this one to bed
C
Before it bursts out of my head
F
Ready for the fight

Dm
When it gets too late
F Am
And I find my place
C Dm
Who will save your soul and love me here
Dm F
When it gets too far
F Am
Well let down your guard
Am C F
Who will save your soul and love me here
(F Am C F)

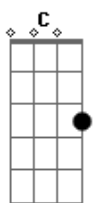

Am C
Inside of another tiny life
C F
Full of big ideas
F Am
It strikes me with the baggage left behind
C F
I could dry those tears
F Am
All of my secrets they are free

C
Now watch them tumble out of me
F
Into better days
F Am
So save those homiletic tones
C
And conjure singing from the moans
F
And you'll hear me say
Dm
When it gets too late
F Am
And I find my place
C Dm
Who will save your soul and love me here
Dm F
When it gets too far
F Am
Well let down your guard
Am C F
Who will save your soul and love me here
(F Am C F (x2))

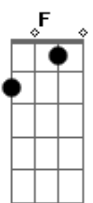

F Am
So step away from castle walls
C
Those voices calling in the halls
F
They are moving on
F Am
So I'll keep my side of the street
C
Cleaner than where our pounding feet
F
Ever walked upon

Dm
When it gets too late
F Am
And I find my place
C Dm
Who will save your soul and love me here
Dm F
When it gets too far
F Am
Well let down your guard
Am C F
Who will save your soul and love me here
