

Jason Derulo - Blind

Tom: Eb

(com acordes na forma de Capotraste na 3ª casa C)

Never thought that I'd say wish I didn't love you ever Since the first date

when you got close my heart

Would just stop thought me and you together would end Up on top,

you changed me for better for worse I know

I was caught up alway's put you first I never once thought

You would be triflin but o I was blinded...

I was like oh oh oh never wanna let you go go go

Cause I was open before I was open before but

Now I know... That love made me blind so I could'nt

See all the lies you told were right in front of me

Since love made me blind you made a fool of me

You made it look so perfect when it wasn't meant to be

Your love made me blind, love made blind, love made me blind,

Your love made me blind.

(C G Am F)

I gave all of my trust didn't think being faithfull was asking To much but I'm good glad that I know now I was fooled but Fate let me see how they say every tear has it's reasons Every smile has it's own season never once thought Youd be this triflin but o I was blinded...

(C G Am F)

I was like oh oh oh never wanna let you go go go Cause I was open before I was open before but Now I know... That love made me blind so I could'nt See all the lies you told were right in front of me Since love made me blind you made a fool of me You made it look so perfect when it wasn't meant to be. Your love made me blind, love made blind, love made me blind, Your love made me blind.

Cause I felt your lips pressed against mine thought the Sweet smell of your perfume was all mine, I love the Way you scream my name...

(C G Am F)

That love made me blind so I could'nt See all the lies you told were right in front of me Since love made me blind you made a fool of me You made it look so perfect when it wasn't meant to be. Your love made me blind, your love made blind, your love made me blind, Your love made me blind.
