

Jason Mraz - Bright Eyes

Tom: Bb

(acordes na forma do tom A)

Capostrate na 1ª casa

This song is actually really simple and i've not found one accurate tab so I've decided to tab it myself since its a great song easy to play and sing.

///INTRO

A

A

///Then when he starts singing you might as well arpegy the chords

///: 00222X

///#: 05046X

///this way

///and in the 4th verse you play the 2nd part of the intro so it'd be like this

"Bright lights big city, was quite extraordinary ..."

"the drive was pretty I was in perfect company"

"The love of a lifetime since we were ..."

"the one with the bright eyes"

/// Then, you continue to arpegy from the

/// "Why can't I be optimistic" to the

/// "Was standing up there naked"

/// and repeat the intro

/// The song pretty much goes on the same but there is a chord

that seem to be missing

all tabs

/// In the part where he says "growing older more into a man.." you use the # chord up fret so you play

A #

"Theres fear in the truth at hand, frozen I forgot to understand"

A # (X6057X)

"The live keep living; growing older more into a man.."

A # INTRO

"And I let her grow away from me."

/// The same happens in the next part where

A # A
"Love.. love is not pretending."

A # A
"Time.. time was meant for mending"

A #
"Memories into all is satisfactory,"

A # (X6057X)
"Healthy smiles fill the page the day we spent in miles."

A # A
"And I let her drive away from me."

/// Bridge

/// Next verses same as before.

/// And for the ending you have

"And I, I'll never take that day away"

"from me"

A E A
"oh no"

/// That's it any comments at

/// For the live version just put a capo in the 1st fret or tune up the guitar but the are the same, also you can arpegy the A chord every time as in the ending part and it'll more accurate.
