

Jason Mraz - Everywhere

Tom: C

Intro: F Am G F Am G

If I wasn't a ghost I couldn't walk into you
 If I wasn't the snow how could I fall for you?
 If I wasn't a songbird how could I call to you?
 If I wasn't a fly on the wall I wouldn't know all about you

Refrão:

I'm everything and everywhere, can you see me in your own reflection?
 I'm deep within the molecules of the air that you breathe
 And all the subatomic supersonic spaces in between
 I'm everywhere, I'm reaching out in every direction
 I believe I'm in the water too 'cause you act just like you need me
 I'm everywhere

If I wasn't the fire how could you stoke me up inside?
 If I wasn't a party how could you be the life of me?
 If I wasn't a camera how could you be so photogenic? Yeah I said it

If I wasn't the hands on the clock how could you know that the time was right, tonight?

Refrão:

I'm everything and everywhere, can you see me in your own reflection?

I'm everything and everywhere, can you see me in your own reflection?

I'm deep within the molecules of the air that you breathe

And all the subatomic supersonic spaces in between

I'm everywhere, I'm reaching out in every direction

I believe I'm in the water too 'cause you act just like you need me

Ponte:

I got a mind like a spy on a satellite checking you out

I'm like a fly with my infinite eyes

I can see with all my senses and I'm coming to get you

I'm invisible, expendable and omnipresent

Refrão:

I'm everywhere, can you see me in your own reflection?

I'm deep within the molecules of the air that you breathe

And all the subatomic supersonic spaces in between

I'm everywhere, I'm reaching out in every direction

I believe I'm in the water too 'cause you act just like you need me

I'm everywhere

I'm everywhere

I'm everywhere

I'm everywhere
