

# Jasper Owen - I Wish You Liked Boys

Tom: C

C  
I grew pretty attached to you

Let you get close to me

F  
Thought you were everything I could ever have dreamed of

And more than I could ever need

Dm  
But you like girls, girls, girls

G  
But you like girls, girls, girls

C  
And you don't like me

C  
I caught you looking at me differently

When nobody else could see

F  
Thought you were always aching to see me

At each and every little possibility

Dm  
But you like girls, girls, girls

F  
But you like girls, girls, girls

C  
And you don't like me

Am  
I could sit you down and give you a million reasons why,

F  
Being with me would make you realise that you'd be better with a guy

C  
I could tell you I'd treat you right

And never wrong

G  
Tell you in my arms is where you belong,

But I know that you can't change someone

So I'll just leave you alone, although,

F  
I wish you liked boys, boys, boys

Wish you liked boys, boys, boys

C  
Boys like me

C  
You could've had the decency to tell me

When I tried to kiss you

F  
That other guys aren't really something

That you've ever been into

Dm  
'Cause you like girls, girls, girls

F  
'Cause you like girls, girls, girls

C  
And you don't like me

C  
You could've had the kindness to

Turn me down privately

F

Instead of laughing about it with all of your mates

And letting them talk shit about me

Dm  
'Cause you like girls, girls, girls

F  
'Cause you like girls, girls, girls

C  
And you don't like me

Am  
I could sit you down and give you a million reasons why

F

And never wrong

C  
Boys like me

G  
And I know you don't swing that way

F  
But that won't take my feelings away

F  
Oh I wish you liked boys

I wish you liked boys

G  
And I know you don't swing that way

But that won't take my feelings away
