

# JC Carmo - The Future Of Humanity (Rock Version)

tom:

**C**

**F** **Am**  
We are standing at the edge of time

**F** **Am**  
Watching for the great unknown

**F** **C** **Dm**  
Will we find a way to be sublime

**G**  
Or will we fall like stones?

**C**  
We'll take the good and leave the bad

**G**  
And pave a path for all to see

**Dm**  
A future bright, a future glad

**Am**  
Where love and peace will always be

**C**  
The future of humanity

**Dm**  
Is written in the stars above

**Am**  
We'll reach for the sky with all our might

**C**  
And build a world of love

**Am**  
We'll harness the power of technology

**F**  
To make a brighter, better place

**C**  
We'll break down the walls of inequality

**G**

And show the best the human race

**C**  
We'll take the good and leave the bad

**G**  
And pave a path for all to see

**Dm**  
A future bright, a future glad

**Am**  
Where love and peace will always be

**C**  
The future of humanity

**Dm**  
Is written in the stars above

**Am**  
We'll reach for the sky with all our might

**C**  
And build a world of love

**C**  
We'll take the good and leave the bad

**G**  
And pave a path for all to see

**Dm**  
A future bright, a future glad

**Am**  
Where love and peace will always be

**C**  
The future of humanity

**Dm**  
Is written in the stars above

**Am**  
We'll reach for the sky with all our might

**C**  
And build a world of love
