

# Jeff Pianki - Missing Parts

Tom: C  
Intro: C Em F C G

C  
Its been ten years  
And I've got my new set of scars  
From broken hearts and broken arms  
From chasing after where you are  
I've cried a couple tears  
Been taking everything to far  
And running around in the dark  
Trying to finish what I couldn't start  
[Refrão]

So who's gonna love you now  
That gravity brought you down  
Now that im not around  
Who's gonna love you now?

C  
This is where you disappear  
After playing all your favorite cards

A father, but just on my charts  
You leave before it gets to hard  
So what are you doing here  
When everyone is at the bar  
Filling in the missing parts  
And here we are

[Refrão]

So who's gonna love you now  
That gravity brought you down  
Now that i'm not around  
Who's going to love you now?

( C Em F Am G )  
( C Em F Am G )

[Refrão]

So who's gonna love you now  
That gravity brought you down  
Now that I'm not around  
Who's gonna love you now?
