

Jeff Satur - Lucid

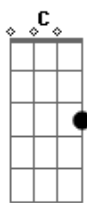

tom:

C

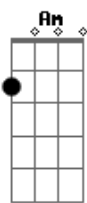

Won't you miss the nights we drifted afar
Am
And knew we would find a place in the stars for two
F
Taking you to dance in the sky
C
The nights you would be beside me
Am
Your lips to mine
F
Nothing could compare
F
But every star's light
C
Waits for you in the dark tonight
Am
I know that nothing ever lasts even the good things
D7
If we chase the past, we can only dream
F
But while it's still lucid, I'll drown in
G
C
Before daylight breaks us at the seams

Before you're gone and wake from me
