

Jeff Satur - Stranger

tom:

Intro: A E A

Look in the mirror

Tell me who that I see

It's past December

But the cold's killing me

And I know it's too late to take

A flight to fly to your side

Tonight but baby I'll drive to you

'Cause I know it's too late to say

Goodbye but only just one

More night can I lay by your Side

Come a little closer, baby

There's no one around only you and me

It's not the end of our story

So would you, please, dance with me

Even after all we're all

Strangers

(E A E)

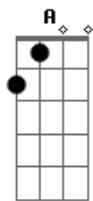

Do you remember

Tell me what do you see

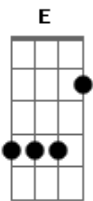

When we get older

Maybe we would be free
