

Jeff Satur - Stranger

tom:

Intro: A E A
 Look in the mirror
 Tell me who that I see
 It's past December
 But the cold's killing me

And I know it's too late to take
 A flight to fly to your side
 Tonight but baby I'll drive to you
 'Cause I know it's too late to say
 Goodbye but only just one
 More night can I lay by your Side

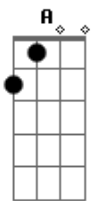

Come a little closer, baby
 There's no one around only you and me
 It's not the end of our story
 So would you, please, dance with me
 Even after all we're all
 Strangers
 (E A E)

Do you remember
 Tell me what do you see
 When we get older
 Maybe we would be free

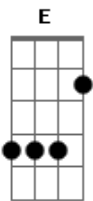

And I know it's too late to take
 A flight to fly to your side
 Tonight but baby I'll drive to you
 'Cause I know it's too late to say
 Goodbye but only just one
 More night can I lay by your Side
 Come a little closer, baby
 There's no one around only you and me
 It's not the end of our story
 So would you, please, dance with me
 Even after all we're all
 Strangers, ooh

(E A E A E A)
 And I know it's too late to take
 A flight to fly to your side
 Tonight but baby I'll drive to you
 'Cause I know it's too late to say
 Goodbye but only just one
 More night can I lay by your side
 Come a little closer, baby
 There's no one around only you and me
 It's not the end of our story
 So would you, please, dance with me
 Even after all we're all Strangers
