

Jefferson Airplane - Good Shepherd

Tom: E

From: (Mark R. Rubin)

The following should help you get started. It's what I transcribed from the record a while back; no guarantees of accuracy, etc. In particular, I think the signature acoustic guitar riff (marked "intro" below, but really runs through the whole song) is played by two guitars, one or both of them in an open tuning. I think the notes I have are right, but the voicings aren't.

Also, I didn't tab the electric guitar lead part. It's fairly easy to figure out and play.
