Jeremiah Lloyd Harmon - Almost Heaven

```
                              tom:
                       D

           D              Gbm
There?s an angel in the window
           Bm             D            Gbm
On a West Virginia church door swinging open
           G            Gb4    Gb
And he?s pointing to the exit sign

           D              Gbm
Said you?ll never walk on water
           Bm             D            Gbm
If you wait until the river?s frozen over
           G            Gb4    Gb
In the Shenandoah summer

              B           Abm7
Well it was almost heaven
Ebm7              Db4       Db
Choirs singing in robes of white
B         Abm7
Almost heaven
Ebm7          Db4       Db
Lovers laying side by side but

B             Abm7
When we reach forever
           Ebm7             Db4      Db
Will there be a place where you and I
Bbm7          B
may call home

( Abm7   Ebm7   Db4   Db )

           D              Gbm
So I keep a candle burning
           Bm             D            Gbm
And I pray to see that saint I knew for certain
           G            Gb4    Gb
But it?s just my own reflection now

              D              Gbm
And that silhouette in the window
           Bm             D            Gbm
Is the shape of someone I don?t quite remember
     G            Gb4    Gb
Dancing in the fire

              B           Abm7
