

Jeremy Renner - December Days

tom:

Intro: Bb Eb F Gm Cm Ebm Fm

Remember when we were young
 Never afraid
 Running wild with every path we take
 Remember when we were one
 Thought nothing could change
 Like evergreens on those December days
 Now time has passed by
 Our worlds divide
 There's no reason why
 When did rights become wrong?
 All our goodbyes are gone
 An empty space that we can't fill with blame
 We keep holding on
 To December days

It'd take a miracle, a miracle to stay

(Eb F Eb)

Under this moonlit night
 Together alone
 Silence screams to broken shadows
 How did we come undone?

Seams become frayed
 We fall so far from those December days
 Now time has passed by
 Our worlds divide
 There's no reason why
 When did rights become wrong?
 All our goodbyes are gone
 An empty space that we can't fill with blame
 We keep holding on
 To December days

It'd take a miracle, a miracle to stay

(Bbm Gb Ab)
 (Bbm Gb F F)

When did rights become wrong?
 All our goodbyes are gone
 An empty space that we can't fill with blame
 We keep holding on
 To December days

It'd take a miracle, a miracle to stay

It'd take a miracle, a miracle
 To stay
