

Jeremy Zucker - All The Kids Are Depressed

Tom: D

How long have you been smiling?
 It seems like it's been too long
 Some days I don't feel like trying
 So what the fuck are you on?

I think too much, we drink too much
 Falling in love like it's just nothing
 I want to know where do we go
 When nothing's wrong

'Cause all the kids are depressed
 Nothing ever makes sense
 I'm not feeling alright
 Staying up 'til sunrise
 And hoping shit is okay
 Pretending we know things
 I don't know what happened

My natural reaction is that we're scared
 So I guess we're scared

But I can't really keep lying
 'Cause I've been scared all along

Getting sick of sleeping in
 While all my friends are popping pills
 And I don't think that they're wrong

I think too much, we drink too much
 Falling a part like it's just nothing
 I want to know where do we go
 When nothing's wrong

'Cause all the kids are depressed
 Nothing ever makes sense
 I'm not feeling alright
 Staying up 'til sunrise
 And hoping shit is okay
 Pretending we know things
 I don't know what happened
 My natural reaction is that we're scared
 So I guess we're scared

I won't deny it 'cause you stole all the words
 I can't deny it if you won't give a fuck
 So I'll start it out
 You know I am so in love
