

Jerry Lee Lewis - Before The Night Is Over

Tom: **G**

I can tell by the way you're a little bit lonely just like Jerry Lee

It's just like someone that you're needing to forget

Honey that's the same thing with me

I've been wondering baby why don't we

Just make believe it ain't the first time we have met

And before the night is over you're gonna be in love

I bet you by the morning I'll be the only one

That you'll be thinking of

So we will will come together as close as fingers in a glove

And before the night is over you gonna be in love

Honey I can tell Jerry Lee can tell

Somebody might put that lady there right through pure hell

And she can use a little tenderness these things I know

So if you feel that it's wrong

I could be coming on a little bit too strong

Just let me know I'll pack my junk I just might go

And before the night is over you're gonna be in love

I bet you by the morning I'll be the only one

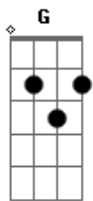

That you'll be thinking of

So we will will come together as close as fingers in a glove

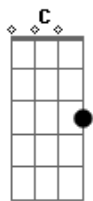

And before the night is over I said before the night is over

Hey girl before the night is over you're gonna be in love
